Seriya lingvističkih predavanja
Jezik i umjetno(st)
ARTificial language&intelligence

Seriju lingvističkih predavanja **Jezik i umjetno(st) – ARTificial language&intelligence** organizira Odsjek za bosanski, hrvatski i srpski jezik Filozofskog fakulteta Univerziteta u Sarajevu. U toku 2025. godine u okviru serije održat će se 7 predavanja. Predavači su lingvistički eksperti iz Bosne i Hercegovine i inozemstva. Cilj je serije promocija lingvistike, razmjena iskustava te osnaživanje međunarodne akademske saradnje. Teme predavanja dovode u vezu odnose između prirodnih jezika, umjetnih jezika, umjetne inteligencije (UMI) i književnosti.

Predavanje 6/7

Dennis Yi Tenen: Narrative Intelligence

Abstract

In this talk we'll examine the history of story machines from the perspective of distributed cognition and shared labor.

About the lecturer

Dennis Yi Tenen is an associate professor of English at Columbia University, where he also co-directs the Narrative Intelligence Lab. His research happens in the fields of literary history, media theory, computational humanities, sociology of literature, narratology, and history of science and technology.

His published work can be found in monographs including *Plain Text: The Poetics of Computation* (Stanford University Press, 2017), *Literary Theory for Robots* (W.W. Norton, 2024) and "Author Function" under contract with Chicago UP. His recent articles appear on the pages of *Modern Philology*, *New Literary History*, *Amodern*, *boundary2*, *Computational Culture*, and *Modernism/modernity*.
